Dear Friend,

*A few weeks ago, we sent you a FREE copy of our special report and since we haven’t heard from you, we thought we’d send you another report as a way of reminding you that you had requested this information about how to *instantly **Explode Your Income and make huge sums of money without ever leaving home!****

If you’re like many of my friends, you may be searching for the perfect blend of extra income and personal satisfaction but without the extra hard work. If you’re becoming frustrated in the search for that Ideal Home Business...or that perfect additional Profit Center for your current business, I may have the perfect solution for you.

Advise and Profit!

“How To Make A Surgeon’s Income As A Home Based Business Consultant (After All It’s Not Brain Surgery)” gives you **everything you’ll ever need** to start and run you very own successful Home Business, and still have the time you need to spend with your family. Better time too...because **there’ll be extra cash** for goofing off and taking vacations. With enough left over for your retirement fund and all those school “extras.”

I’ll show you all you need to know. If you have absolutely no special skills, no problem.

I’ve **never made less than \$100,000.00 a year, part-time**, from my home based business consulting. I think most people can do the same thing I do and have the same potential, if they choose to make use of it.

Today’s individuals and businesses continue to show their need, desire, demand and willingness to pay for “advice” and “specialized, expert assistance.” In today’s time crunched world, there may never be a better time to start as a home based business consultant.

You'll find consulting is a **near-perfect business**. You have enormous freedom.... you can operate with virtually no overhead, even from home if you choose....and it is relatively easy to "bill" at least \$1,000.00 a day. There are thousands of industries available, so the odds are you have some combination of education, practical knowledge, experience, credibility and interests that can be "packaged" with the right SYSTEM and sold as consulting services desired by some market or markets. (Among my friends and clients who've become successful consultants, there is a carpet cleaner, a computer operator, a volleyball coach and the list goes on).

Why Do Some People Find Home Based Business Consulting Is The Easiest Way To Make Huge Piles of Cash While Others Have To Slave Every Day Fighting In The Rat Race Just To Make A Meager Living?

One thing I find interesting is how one consultant earns \$250,000.00 a year, and another barely squeaks by above poverty level at \$20,000. If you've ever wondered that yourself, I do have the answer. In fact, there's more than one answer, but the main one is that it is absolutely critical, to have a SYSTEM that you can master, in order to hit high income levels in Home Based Business Consulting.

After years of people asking me how I've built my consulting business and helped others to build theirs, I decided to create a Course; actually a simple SYSTEM of how I do it.

Who Is This SYSTEM For?

Experienced consultants will find this a good addition to what they might be doing now and will certainly discover a strategy new to them - many experience a major income explosion when adding this SYSTEM to their toolbox. People just wanting to get started as a Home Based Business Consultant will find this to be almost the equal of guaranteed success insurance for their new business.

So, who should get this Course? Any already established consultant who wants to boost their income giving marketing and business advice, or who wants a better way of making money and attracting new clients. Also, anyone interested in making \$500 to \$1,000 a day "part-time". Many executives, computer experts and other professionals do very, very well in the consulting business.

In fact, I'm so confident you can do the same, I'm inviting you to try it out for yourself, **ABSOLUTELY RISK FREE!**

No catch, no strings, no hidden costs. If it's not exactly what you want, we'll give you your money back! Here's what you get with...

“How To Make A Surgeon's Income As A Home Based Business Consultant (After All, It's Not Brain Surgery!)

This Course includes two Audio-Cassettes giving an incredible grounding in marketing that every business owner needs. It covers question and answers, how-to strategy and the best ways to market a business. Its companion is a 157 page Manual.

The SYSTEM includes:

- **How to make more money from home but still be able to spend more time with your family and not have to deal with traffic or corporate bullshit.**
- It will allow you to give your family the higher standard of living you've been wanting for them!
- **A detailed and easy to understand "how-to" course on setting up and doing Marketing Checkups from your home.**
- You can remove the financial pressures you feel every time you find out the kids need braces, or the brakes go on the car and the first thing you think of is...how much is THIS going to cost me.
- **Why a phone based consultation system you do from your home office is the best way to give advice.**
- How to have less distractions so you have less stress, have all your resources at your fingertips, and you remain in your comfort zone.
- **You'll learn how to be more professional and have a higher chance of success.**
- How to get repeat sales.
- **An easy side benefit of the SYSTEM that will grow the value of your business.**

The result...You'll grow wealthy.

The Surgeon's Income also features this incredible bonus...

- **Marketing material written by professional, proven copywriters that have sold millions of dollars of products with the sales material they've written.**
- You won't have to write any ads or sales letters. No agonizing copywriting study only to get it wrong. No big fees paid to a clueless copywriter.
- **You'll have proven tools where most opportunities fall down and fail.**
- You'll get proven ways to get leads and customers.
- **You can get started fast in your business.**
- This will allow you to recoup your investment quickly.
- **In fact, you'll virtually be out no money at all!**

In addition, you AND your customers will get two amazing audio tapes to ground you AND them in marketing, before you ever speak to them.

- **This helps you client be prepared and ready to accept your advice.**
- You don't have to learn everything about marketing on your own.
- **Your customers can get a grounding in the mindset from which you'll be consulting from.**
- They will be more receptive to the advice and you won't have to explain basic concepts to them.

- **There will be more time for “meat and potatoes” advice which will make you more valuable to your client.**
- This will get them to listen to you, implement ideas and then come back for more advice.

The Surgeon’s Income features a fact finding questionnaire which is a way to weed out the looky-lou’s and pretenders.

- **This will allow you to only work with those serious about improving their business and more likely to comply with your suggestions. Thus, they see results and will hire you again.**
- It also keeps you from wasting time giving free advice and keeps you efficient, productive and profitable.
- **This is forced time management that will keep your home based business alive and thriving.**

Another great by product of the How To Make A Surgeon’s Income program is that while going through the SYSTEM and following our roadmap, you can record all the consultations you do with your clients and turn them into info products by having your marketing advice transcribed and fashioned into a tape and book “product.”

- **This will boost your future sales and will allow you to make money more than once off of the same work. This is how to build long term success and tons of cash profits.**
- You’ll be able to increase the profits of your business exponentially.
- **You’ll know longer be just trading hours for dollars.**
- It leverages you into a more profitable business.
- **You get a company that can be sold while working less.**

You’ll also have a phone script to follow for following up with your leads you generate from the enclosed sales letters.

- **This will further qualify the prospect and remind them about your sales letter which boosts response.**
- It will have more paying clients coming your way.
- **There will be less work for you to do in order to generate clients.**

More great elements of this SYSTEM are:

- **It teaches you how to make your advice more valuable by customizing it.**
- You’ll learn to make more money for the same amount of work.
- **You’ll have a little item that continues the close, gets a small non-threatening commitment and keeps moving them through the sales process without you doing much work.**
- Your deal flow keeps coming.
- **You have a line up of waiting clients.**
- You spend your time where you make the real money.

- **You have an easy-to-use process because you don't have to answer anything you don't want to when first talking with the client.**
- You're not caught off guard.
- **You don't look foolish.**
- You don't get discouraged and want to quit.
- **There's a better chance of you succeeding and reaching financial freedom.**
- You get a step-by-step "System" to follow in order to make the process go smoothly.
- **You don't have to be nervous about the call because you'll have a system you follow each time.**

You'll also get a "Real" consulting report that I did for a client that paid over \$6,500 for one day of consulting (6 hours only, I hate working 8 hour days). With this report you get:

- **A high priced marketing consultant's brain in action.**
- To see how basic some of the advice is that is given to companies of which they'll pay over \$6,500 a day for.
- **Something you can model in your advice as it is relevant for many businesses.**

I'm sure I've forgotten something, but you get the idea.

Iron-clad, 60 Day, No B.S., No Hassle, No Weasel Clause, 100% Of Your Money Back Guarantee!

You can see we must be confident that you will be satisfied. Only a really honest and established company would give a guarantee that long and most only give 30 days or none at all. And it must be everything we say it is. If it wasn't we'd be foolish to offer such a long guarantee.

So because your decision is totally risk free you won't be any worse off if you tried it then asked for a refund. And your start up capital is totally protected.

The very reasonably affordable price means that you can **recoup your investment with just one client**. In fact, you'll be way profitable after only one client.

You won't have to make financial sacrifices to set up your business. And your family won't suffer while you're getting started.

The AVERAGE hourly rate charged by consultants now exceeds \$100.00 AN HOUR - and that's why a good consultant armed with this course can make more money part-time than many doctors, lawyers or other professionals make working "Overtime"!

I thought about and really considered selling this SYSTEM for \$1,000.00 or more. But I was convinced me to bring the price down, all the way to \$297.00.

But to help you make this decision a **no-brainer**, I'm backing up every promise made to you in this report with a 60 day, 100%, no B.S. money back guarantee! Here's the deal. It's as simple as it can get: If you don't think "The Surgeon's Income" is worth every penny you paid any time in the first 60 days ...just pack everything up, send it back, and we'll refund your entire \$297 fee! That's it. We don't care why you want to return it, and don't give you any hassles what-so-ever. Just send it back in the first 60 days, and **you get your money back! Period. End of story.**

Let's summarize:

1. "How To Make A Surgeon's Income As A Home Based Business Consultant (After All It's Not Brain Surgery) – This 157-page manual is the foundation of the entire program. Everything I've talked about is covered in complete detail. Most marketing material tells you what to do and very little else. That's not the case here. Not only are you told what to do, the reasoning behind every step you take is thoroughly explained. And, most important of all, you are given complete step-by-step details showing you precisely how to carry out each step.

2. BONUS #1: The Surgeon's Income Marketing Toolkit -- In addition, there are actual ads, lead generation pieces, and other marketing documents that have sold millions of dollars worth of services. You're free to copy them, change them, use them any way you want to be as successful as possible in your own business.

3. BONUS #2: Personal Instruction

Even with everything you get, because this information is so new to you, you may still have questions you'd like answered. Here's a powerful solution.

You get two hours on audio tape of live instruction to ground you in the things you need to know to run a business like this. This is the same advice that should be given to every client you work with and most of the ones you'll give it to, just like you, will have had little or no background in marketing.

You'll get two full hours of audio tapes featuring just about the best quick start information you could possibly think of.

This 2-tape program is yours free as part of this comprehensive program.

It's Easy To Get Started

Getting started couldn't be easier. The cost of this business-building program is just \$297. That includes the comprehensive course manual and all the bonuses.

Even though the price is extremely reasonable, here's what's really important. If this program was just another set of sales or telemarketing tapes, it wouldn't matter what the price is.

But if you can get a steady stream of new clients, **double or triple your revenues**, and continue to grow your business year after year for as long as you're in business, what is that actually worth to you?

I can't put an exact dollar figure on it for you - only you can do that. But I can tell you this, at \$297, this program could very possibly be the best bargain and the best investment you'll ever make.

To start your home based business consulting practice or make the one you already have, as profitable as possible, **the easiest way to order is fax your order in to (XXX) XXX-XXXX. I accept fax orders 24 hours a day, 7 days a week.**

You can also order by calling our office at (XXX) XXX-XXXX. If the sales team is busy, please leave a message and someone will get back to you the same day.

The other option is to just mail in the order form to: **ABC, INC, 123 Main Street, Anytown, USA 00000.**
